They are our alarm clocks. Our protectors. They are our own personal trainers and therapists. They make us laugh and comfort us when we cry. They remind us that play is just as important as work, if not more.

At Corey Nutrition, we know that your dog is more than just a dog.

That's why we created **Corey North Paw**. Using only the finest ingredients like pure-filtered water and sustainably sourced Atlantic herring, we ensure a delicious and nutritious meal for your pet - every time!

We also ensure freshness through our unique **CoreyTec™** innovations. Our food is slow-cooked in small batches, each kibble is infused with nutrient-dense omega oils for optimum nutrition and digestibility, and our one-way freshness valve keeps your dog's food fresh, longer.

Corey Nutrition is proudly Canadian, and proud to be the first pet food company in the world with safety protocols rigorous enough for human grade food.

Because we know that when your dog gets the best quality food, you both enjoy the best quality life.

10 REASONS TO CHOOSE COREY NORTH PAW

When you switch to Corey North Paw from a lower protein, lower fat, lower energy dog food, your dog benefits because:

Your dog's ancestral diet was protein, fats and water – not carbohydrates. Grain isn't a necessary part of your dog's healthy diet.

It's easy to digest.

The high ratio of quality protein fuels your dog's vitality.

It promotes your pet's healthy skin.

It promotes a shiny coat, with less shedding.

It contributes to fresher breath.

It's the same nutrition from a smaller portion.

Your pet has fewer and smaller stools, less flatulence.

Your dog stays fuller longer.

It may reduce food allergies and sensitivities, which show up as health problems that are hard to diagnose.

 FAMILY MADE IN ATLANTIC CANADA.
