

The cannabidiol in our care products is ...

... extracted from hemp grown in Switzerland under strict control.

... dissolved from the hemp fibers by means of an extraction process – guaranteed without THC.

... regularly controlled in the laboratory, for a consistent quality and quantity of ingredients.

Valuable ingredients – natural essential oils

Lavender

Calming, relaxing, antidepressant, anti-allergic, anti-inflammatory, antioxidant, adaptation-promoting, antiseptic, bactericidal (kills viruses and fungi), immune-strengthening, wound-healing, antispasmodic. It is used for psoriasis, eczema, dermatitis, seborrhea, acne, fungal diseases as well as for pain relief and healing of wounds and burns.

Macadamia nut oil

Cold pressing preserves all the ingredients of the oil. The added natural vitamin E makes the oil more durable despite the high content of unsaturated fatty acids. Thanks to palmitoleic acid, the oil penetrates quickly into the skin.

Nard oil

Already used in the Middle Ages to promote wound healing, outstanding antibacterial and anti-inflammatory effect.

Yarrow oil

Antiseptic, anti-inflammatory, used for skin inflammations and impure skin.

 SWISS MADE

pet+me®

pet+me® care brushes are the perfect complement during application of our foster shampoos.

NATURE PURE – Care products with CBD

Manufacturer:
Swiscomed AG · Switzerland
www.petandme.ch

For  of animals.

For of animals. Our care products with CBD

For protection against insects for your pet. Especially against fleas, mites, hair lice and ants. The essential oils in this formulation also have a positive effect on skin and hair.

Recommendation for use:

For short hair 1–2 times a week spray the coat / for longhair rub the coat with a cloth.

SPRAY FOR INSECT PROTECTION

For dogs & cats

Natural product for a healthy oral flora. Bacteria, fungi and tartar often form an oral flora that affect health and cause bad breath – Oral hygiene spray works against it.

Recommendation for use:

Spray 1–2 times a day into the mouth.

MOUTH HYGIENE SPRAY

For dogs & cats

NATURE PURE – In our products we use high quality essential oils.

For natural care of cracked and brittle paws and to protect against road salt in winter and hot asphalt in summer. The care oils contained form a fine protective layer over the skin, which protects the coat and skin surface. Due to the rapid absorption no residues remain on the paws, so that there is neither an increased risk of injury on smooth floors nor greasy stains on carpets etc. remain.

Recommendation for use:

Depending on the weather, apply 2–3 times a week – shake before use.

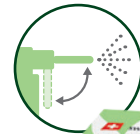

SPRAY FOR PAW CARE

For dogs & cats

Care product for the preventive treatment of fungal and /or bacterial infections and to facilitate regular cleaning of the auditory canal and auricle.

Recommendation for use:

Spray 1–2 pumps daily into the ear and massage in gently. In case of severe contamination: Spray 1–2 pumps daily into the ear, massage in lightly, clean with a soft cloth or cotton pad and then spray 1 pump into the ear again and massage in lightly.

SPRAY FOR EAR CARE

For dogs & cats

Shampoo concentrate is a care shampoo for sensitive pets. It cares for the skin in a natural way with a replenishing effect and restores shine to the coat. The coat is thoroughly cleaned, and dandruff is prevented. It is very productive and 100 % biodegradable.

Recommendation for use:

Dilute 1:5 before use. Massage the diluted concentrate into the wet coat and rinse thoroughly after 2–3 minutes. Due to the tea tree oil contained, the product should not be used on cats.

PARASITE SHAMPOO

Concentrate · For dogs
